

Pro-ject MaiA À prova de futuro

The leading Hi-fi magazine from Portugal says:

“MaiA is really a future proof amplifier”

“MaiA belongs to a new breed of amplifiers that can go beyond the traditional amplification part... amplifying the signal and take it to the speakers”

“The USB asynchronous connection reveals an open, strong and consistent sound ”

“The Phono input offers very good channel separation, and the sound is honest, clear and punchy ”

“In conclusion MaiA is extremely versatile, capable in reproducing several sources (from traditional to modern) with a no compromise sound, but capable and honest ”
